

VOSS Selected As Hottest Company in DC Area

Wednesday, July 7 2010 – Richardson, TX – VOSS Solutions, leading provider of Unified Communications (UC) service delivery and management software, today announced that they have been selected for a Lead411 award, as one of the "Hottest DC Area Companies".

This award recognizes VOSS as one of the fastest growing technology companies in DC, Virginia, Maryland and Delaware.

Lead411 provides information, news, and research about US companies and their executives. Founded in 2001, its goal has been to focus on quality corporate data that is valid and useful rather than producing as many company records as possible.

The "Hottest Companies" awards have been created to recognize fast growing companies in different geographic regions. This particular list originally started with over 1650 companies and it has been narrowed down to the top 81.

"We have been tracking fast companies for our customers for the past 10 years," said Tom Blue, CEO of Lead411, "and we felt it was important to recognize these growing brands publicly."

About VOSS Solutions

VOSS, a leader in service delivery software, helps organizations meet their rapidly changing Unified Communications (UC) and IP telephony (IPT) requirements. The VOSS real time, centralized and fully automated UC service delivery platform addresses the challenges involved in managing the entire UC lifecycle: Day-0 initial design; day-1 build and deployment; day-2 support and administration; day-3 upgrade and scaling, enabling its customers to operate highly flexible UC and IPT networks. By simplifying business processes and removing technical complexity, VOSS increases productivity, speeds implementation, cuts costs, and provides a platform to launch new UC services.

With offices in the USA, UK, mainland Europe, Middle East and South Africa, VOSS is funded by Eden Ventures, XAnge Private Equity and PE Investments. VOSS customers include prominent global service providers, niche managed service providers, and large enterprises. www.voss-solutions.com.
